Statement of intent

We transport crude oil by sea selling them to our customers or storing them, processing them and shipping the refined product to where it is consumed.

We tap into our extensive regional network in Asia and around the world to facilitate the marketing, processing, financing and transportation of essential raw materials between producers and users, situated predominantly in Asia – the world's fastest growing economic region. Our asset-light model allows us to focus on our core business: commercial commodities supply chain management, so as to provide the best value to our customers.

Glück auf! Best regards

M. Pointner
